

Manifesto for May Day 2016

Workers and labourers of all the countries!

The capitalists and its government continue without stopping their aggression on the workers and the peoples.

The dismissal and the forced increasing of the exploitation, the wage cut and the deterioration of the work conditions, the flexible working and precariousness, the austerity programs and the great injustices increases the profits the monopolies and worsen the situation of the labourer masses.

Nowadays, poverty affects wide strata of workers that create all the social wealth and youth unemployment have dramatic consequences, while a handful of rich people keep getting richer.

The corrupt ruling classes accentuate authoritarian and bullying governing methods, liquidate the rights and the democratic freedoms of the workers, repress brutally the worker's and popular protests, in order to perpetuate its privileges and power.

The imperialist and capitalist powers are in the path war, against the interest of working class and the peoples. They are rearming, they become more aggressive in order to impose their exploitation and domination.

As a result of the economic spoliation and the wars of pillage, massive migration are proceeding from the poor and oppressed countries to the richer and dominant ones, that close the borders.

At the same time, the imperialism with its wars and military aggressions generates the reactionary and fascist terror that is used to redraw the maps of the entire regions and to maintain the masses into obscurantism.

In this situation, that demonstrate that capitalism is incompatible with the interest of working class and the peoples, the ICMLPO appeals to celebrate this May Day reinforcing the unity and class solidarity, creating in the common struggle the unique front of all the workers against the offensive of the capital and the political reaction, the politics of imperialist war and the fascist terror!

We call the working class to trust in its own enormous force and strengthen its unity and struggle in every countries and all over the world.

We call to the international solidarity of the workers, labourers and peoples, to the revolutionary unity of the international worker's movement!

Let us extend and intensify the struggle against the capitalist exploitation and the bosses attacks, facilitated by their opportunist accomplices, for the uncompromising defence of the political and economic interests of the working class and its organizations, to overturn on the ruling classes the consequences of the crisis!

Let us extend and intensify the struggle against the bourgeois reaction in all its forms, raise the flag of the liberties and the rights of the working class and the popular masses threatened by the bourgeoisie, the reactionary and fascist forces!

Let us extend and intensify the struggle against the robbery war, the imperialist interventions and interferences, the rearmament and military measures applied by the bourgeois governments!

Let us join and strengthen in every countries the organizations of the working class against the bourgeoisie, to break the chain of capitalist-imperialist power and to construct the new society without the exploitation of man by man.

Long Live May Day, international day of proletarian solidarity!
